

Liber8™ Themes

customisable issue & returns software

Standard themes

As standard, Liber8™ NG is installed to Intelligent self-service equipment, however, libraries can choose from a portfolio of themes (highlighted below).

User package

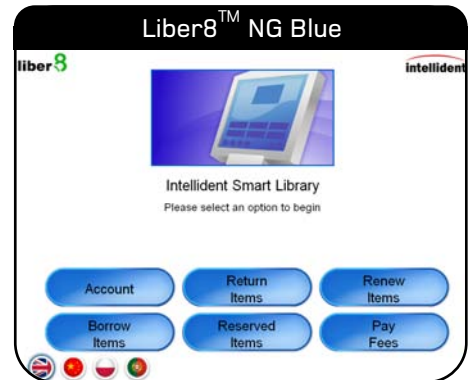

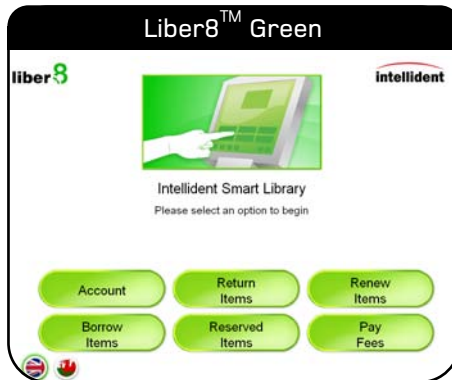

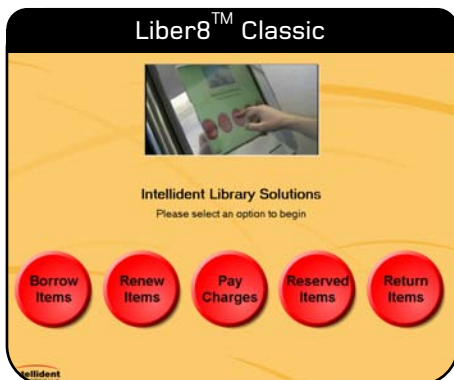

Themes come complete with a range of language options, alongside enhanced step-by-step animations and account management features.

DDA compliant

Each Liber8™ screen and interface has been designed at a 100% DDA compliant height, along with a variety of children-friendly designs.

Customisation service

An addition to the standard Liber8™ package, the customisation service allows customers to tailor screen designs to create an exclusive interface.
